

TANYA SHUKLA

Computer Science Engineering Student

[tanya.shukla2210@gmail.com] | [+91-8826011550] | [Noida, India] | [LinkedIn](#) | [GitHub](#)

SUMMARY

Computer Science Engineering student in an integrated B.Tech + M.Tech program with hands-on experience in full-stack web development and computer vision projects. Skilled in Python, JavaScript, Flask, and MySQL. Built AI-powered and web-based applications and completed certifications in DSA, OOP, Databases, and Cybersecurity. Seeking Software Development internship opportunities to apply technical skills and continue growing as a developer.

WORK EXPERIENCE

Web Development Intern — Codsoft

Jun 2024 – Jul 2024

- Built 3 responsive websites using HTML, CSS, JavaScript, and Bootstrap as part of a structured internship program.
- Used CSS Flexbox and Grid for mobile-friendly layouts and deployed all projects live on Vercel.
- Practised clean code, semantic HTML, and cross-browser compatibility throughout the internship.

EDUCATION

Bachelor Master of Technology (Integrated)—Computer Science Engineering

Expected: [September, 2029]

Noida Institute of Engineering and Technology (NIET), Greater Noida, India

- CGPA: [8.58 / 10]
- Key Subjects: Data Structures & Algorithms, OOP, DBMS, Web Development, Operating Systems

Class XII(Senior Secondary)

Year: [March, 2021]

The Khaitan School, Noida, India

- Board: CBSE
- Percentage: 87.8%
- Subjects: Physics, Chemistry, Mathematics, Biology

Class X (Secondary)

Year: [March, 2019]

The Khaitan School, Noida, India

- Board: CBSE
- Percentage: 94.4%

PROJECTS

SmartLens — AI-Powered Image Analysis Platform

2026

Python, Flask, YOLOv8, Tesseract OCR, OpenCV, JavaScript | github.com/Tanya-869/SmartLens

- Built a web app that combines object detection, text reading (OCR), and barcode/QR scanning in one place.
- Used YOLOv8 deep learning model to detect objects in images with labels and confidence scores.
- Added image preprocessing (brightness, noise removal) to improve text extraction accuracy.
- Deployed the full application on Vercel with a clean, mobile-friendly frontend.

Fitpro — Fitness Management System

2025

HTML, CSS, JavaScript, PHP, MySQL | github.com/Tanya-869/Fitpro

- Developed a fitness platform for users, trainers, and admins with separate login and access levels.

- Designed a MySQL database to store user profiles, workout plans, and progress — with proper indexing.
- Built an admin dashboard showing live statistics and a trainer portal for managing client workout plans.

Codsoft Internship Projects

2024

HTML, CSS, JavaScript, Bootstrap | github.com/Tanya-869/Codsoft

- Created 3 web projects with responsive design and interactive JavaScript features, all deployed on Vercel.

KEY SKILLS

- | | | |
|----------------|------------------------|------------------|
| • Python | • JavaScript | • Java |
| • HTML5 & CSS3 | • PHP | • C / C++ |
| • Flask | • Bootstrap | • React (basics) |
| • MySQL | • Cybersecurity Basics | • Git & GitHub |
| • Linux / Unix | • Computer Vision | • REST APIs |

CERTIFICATIONS

- Data Structures & Algorithms using Python (Parts 1 & 2) - Infosys Springboard | Aug 2025, Jan 2026
- Object Oriented Programming using Python - Infosys Springboard | Aug 2025
- Database Management System - Infosys Springboard | Jan 2026
- Unix & Linux OS Fundamentals - Infosys Springboard | Aug 2025
- Twitter Bootstrap - Infosys Springboard | Mar 2026
- Java for AP Computer Science A - Oracle Academy | Nov 2025
- Introduction to Cybersecurity - Cisco Networking Academy, NIET | Feb 2026
- Programming in C - Infosys Springboard | Apr 2025
- Introduction to MongoDB – MongoDB | Aug 2025
